

## Accommodation

Accommodation is in Catch Carp Spain's charming, traditional Spanish townhouse which is situated 100 yds from the banks of the Orellana lake on the Guadiana.

We are only five minutes walk from Orellana La Vieja town centre which has numerous bars, restaurants, shops and cafes. This is the ideal location from which to base your carp fishing holiday in Spain to get the most from your time with us. As you will never be

more than half an hour from the best fishing areas and as little as five minutes from others, this allows for more time spent on the bank fishing. Catch Carp Spain aims to make your visit with us as friendly and relaxed as possible so that you can concentrate on your fishing.

Catch Carp Spain takes great pride in providing fantastic meals freshly prepared using local ingredients from the plentiful selection in the area. Extremadura is primarily an agricultural region so there is no shortage of wonderful produce to choose from. Most meals are taken outdoors to take advantage of the great weather and our lovely garden full of Orange, Lemon and Olive trees.

There is also use of the internet available to clients.

This makes for the best environment possible to have an unforgettable carp fishing holiday here with us in Spain.
